Patents Showing: View as: Patents **1 - 10** on **online and offline form filling with structure controlled logic and conditions**. (0.15 seconds)

[Sort by relevance](#) | [Sort by date \(new first\)](#) | [Sort by date \(old first\)](#)

Personalized method and system for storage, communication, analysis, and ...

US Pat. 5542420 - Filed Apr 29, 1994

5 is a **logic** flow diagram utilized hi one application illustrating exemplary **logic** ... health and **conditions** of the individual including such parameters as ...

Mini cache operational module for enhancement to general cache

US Pat. 5537609 - Filed Oct 24, 1995 - Unisys Corporation

Thus, the mini-cache is virtually provided free of additional hardware costs since most of its **logic** is generally already resident in one **form** or another. ...

Enhanced computer operational system using auxiliary mini-cache for ...

US Pat. 5640531 - Filed Jan 16, 1996 - Unisys Corporation

This block, being **controlled** by an external maintenance subsystem 50, ... since most of its **logic** is generally already resident in one **form** or another. ...

Bus station with integrated bus monitor function

US Pat. 7024508 - Filed Jul 18, 2003 - Vega Grieshaber KG

9 shows the basic **structure** of a sensor 14 or actuator 10 15 in a functional ... (**conditions** 1 to 8), and combined with each other using **logic** operators, ...

Electron beam current measuring device

US Pat. 5451794 - Filed Jan 25, 1995 - Atomic Energy of Canada Limited

The KPS is a dc, variable-voltage, continuous-duty, power supply with the output voltage and current limit **controlled** by **logic** controller 30 and includes a ...

[APPLICATION] Rules based real-time communication system

US Pat. 10731872 - Filed Dec 9, 2003 - CONVOQ, INC.

Similarly, the **conditions** 174 represent "if" **logic**, in that the state of a given

... such as by **filling** in a **form** in a graphical user interface with contact ...

Pin tip assembly in tooling apparatus for forming honeycomb cores

US Pat. 6209380 - Filed Feb 28, 2000 - Northrop Grumman Corporation

Either a single adjustable **form** die or a set of opposing "matched" ... and the individual pin movements can be **controlled** by a Personal Computer (PC), ...

Automated walk-thru cattle sprayer

US Pat. 6966276 - Filed Nov 7, 2003

After **filling** tank 38, manual valves 104 and 106 are closed, and the second 40 control valve means ... The controller circuitry implements the **logic** of FIG.

...

[APPLICATION] High data rate interface apparatus and method

US Pat. 11089643 - Filed Mar 24, 2005

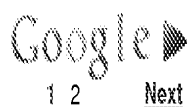

When Bit 3 is equal to a value of 1 or **logic**-one level, an **offline** image buffer ... a **structure**, means, or method for placing specific client **controlled** or ...

[APPLICATION] Storage system with cascaded copy targeting and enhanced integrity

US Pat. 11339094 - Filed Jan 24, 2006 -

[0102] It will be equally clear to one skilled in the art that the **logic** ... of **controlled** storage apparatus; and responsive to detection of an **offline** ...
